GOOD BETTER BEST
PRODUCT RATING

100E Series Professional Speaker

- 100 watt power handling with high intelligibility & sound penetration.
- Specifically designed for electronic siren & voice communication signaling on emergency vehicles.
- Suitable for installation within engine compartments or for mounting on front of radiator or on the bumper.
- Rugged & weatherproof construction.
- **Available Brackets:**
 - Chevrolet Impala '06 #ETSS100BKPALA
 - Ford Crown Victoria Police Interceptor '05-'06 #ETSS100BKCV

8" w x 5.5" h x 7" d

GOOD BETTER BEST
PRODUCT RATING

100H Series Neodymium Professional Speaker

#ETSS100H

- Compact design with 4 vehicle specific brackets.
- Used for high powered transmission of electronic siren & voice communications in police & emergency vehicles.
- Easy to install & field replaceable.
- Delivers clear & powerful sound output with Neodymium magnet.
- 100 watts of high performance power.
- Aluminum back powder coating housing resists corrosion.
- Tested rigorously for dust, high pressure water, corrosion & vibration.
- Passes all tests for SAE J1849, J575, J2139 & CA Title 13 compliant.
- **Available Brackets:**
 - Chevrolet Impala '06 & newer #ETSS100HBPALA
 - Chevrolet Tahoe '06 & older #ETSS100HBKTH
 - Dodge Charger '06 & newer #ETSS100BKDC
 - Ford Crown Victoria Police Interceptor '05 & newer #ETSS100HBKCV

5.90" w x 5.80" h x 2.77" d

100D Series Professional Speaker #ETSS100D

- Our newest speaker has undergone a series of grueling tests including testing for Dust, High & Low Temperature, Water, Salt & Vibration so you can be sure this rugged speaker will stand up to all kinds of environmental conditions.
- 100 watts of dynamic sound.
- Can be mounted horizontally or vertically.
- Specifically designed for narrow & small spaces.
- Super clear voice & sound system.
- Great speaker for high intelligibility communication & signaling applications for emergency, fire & rescue vehicles.
- Easy to install & field replaceable.
- **Available Brackets:**
 - Chevrolet Impala '06 & newer #ETSS100DBKPALA
 - Chevrolet Tahoe '06 & newer #ETSS100DBKCT
 - Dodge Charger '06 & newer #ETSS100BKDC
 - Ford Crown Victoria Police Interceptor '05 & newer #ETSS100DBKCV

6.75" w x 6.34" h x 2.96" d

100C Series Neodymium Professional Speaker

#ETSS100C

- Delivers clear & powerful sound output with Neodymium high performance magnet.
- Field replaceable & easy to install.
- 100 watts of powerful sound.
- Perfect for public address and other high intelligibility communication & signaling applications.
- Weatherproof & corrosion resistant cast aluminum housing.
- **Available Brackets:**
 - Chevrolet Impala '06 & newer #ETSS100BKPALA
 - Chevrolet Tahoe '06 & older #ETSS100CBKTH
 - Dodge Charger '06 & newer #ETSS100BKDC
 - Ford Crown Victoria Police Interceptor '05 & newer #ETSS100BKCV

6.75" w x 6.625" h x 2.3125" d

420 Series Neodymium Continuous Duty Speaker

- Finished in black powder coat baked on epoxy.
- Meets all "Class A" industry performance standards.
- Made with the most reliable & cost efficient 100 watt compression driver on the market.
- Compression driver is the lightest (56% less) and lowest profile (31% less) of the conventional alnico based compression drivers.
- Perfect choice for tight fitting locations where space or weight is a premium consideration.
- Field replaceable driver - take out driver and return for replacement, no need to send entire speaker.
- The 11 ohm, 2.75" high temperature voice coil is oven baked on a high temperature & sealed with a special coating to withstand extreme temperatures and environmental conditions. Voice coil is further protected with a special magnetic cooling liquid that fills the voice gap and provides a thermal path.
- Produces 10 - 15% more magnetic flux density in the voice coil gap.
- Dimensions (speaker only, not including bracket): 5.25" h x 6.375" w x 3" d.
